### **DETAILED ACTION**

1. According to a preliminary amendment filed on Feb. 22, 2005, the applicants have canceled claims 9, 10, 15, 16, 26 and 31-37 and furthermore, have amended claims 4-8, 11-14, 17-25 and 27-30.
2. Claims 1-8, 11-14, 17-25 and 27-30 are now pending in the application.

### ***Election/Restrictions***

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) In part 1-8, 11-14, 17-25 and 27-30, drawn to organometallic dendrimer of formula (I) represented by compounds disclosed in figure 2 and methods of using them.

Group II, claim(s) In part 1-8, 11-14, 17-25 and 27-30, drawn to organometallic dendrimer of formula (I) represented by compound A8 disclosed in figure 4 and methods of using them.

Group III, claim(s) In part 1-8, 11-14, 17-25 and 27-30, drawn to organometallic dendrimer of formula (I) represented by compound C4 disclosed in figure 6 and methods of using them.

Group IV, claim(s) In part 1-8, 11-14, 17-25 and 27-30, drawn to organometallic dendrimer of formula (I) represented by compounds other than defined above for groups I, II and III and methods of using them.

4. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Art Unit: 1625

There is no common core which in the Markush Practice, is a significant structural element shared by all of the alternatives; see PCT Administrative Instructions Annex B Part I (f) (i) (B) (1).

5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. It is of note that if applicants elect group IV, they must provide the core structure of organometallic dendrimer of formula (I).

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
